

Reddish Design

PORTFOLIO

REDDISH DESIGN

Reddish Design is a design studio based in Amsterdam and is founded by Rozanne Snabilie and Nathalie Rotteveel.

We met during our studies at the Amsterdam Fashion Institute. After graduation we decided to combine our creative skills and enthusiasm to start our own design studio.

Next to our own product line with illustrated cards, posters and notebooks, we focus on our commercial work for several magazines and fashion & lifestyle brands.

With love we design everything from fashion prints & patterns to packaging and children books to wallpaper and editorial illustrations for magazines.

The Reddish Design style is quirky, refined, contemporary, illustrative and packed with humor. The designs are always made by hand, using several techniques. Tools like paint, crayons, pencils, paper clippings, stamps and ink are our best friends!

Enjoy our portfolio :)
